

Continental.

Continental is a landmark in modern Swedish history. It's generous, comfortable and immodest in a way that's not typically Swedish, yet it's placed on an elegant steel frame. It's an interesting contradiction, and a success designed by Mårten Claesson, Eero Koivisto and Ola Rune.

Design
Claesson Koivisto Rune

Material
Frame: Solid wood.
Filling: High resilience foam and polyester fiber. Cushions with compressed fiber filled with latex pins.
Base: Steel tubing.
